

Dear Participant,

To add your cooperation profile, please **LOGIN** to your profile, using your username and password. Click on the top / right **EDIT MY DATA**

Then select the **COOPERATION PROFILES** TAB and then click on **CREATE NEW COOPERATION PROFILE**

Please complete all the fields of the form, including as much information as possible, including all pertinent product or services specifications, descriptions, pictures, and so on. You can add more than one cooperation profile.

Remember that the cooperation profile is the main information that the counterparts will look when selecting the counterparts for the meetings and it states what are you requesting/offering and your expected objective of the meetings.

The screenshot shows a web browser window with a dark background. At the top, it says "B2B Matchmaking Event" and "MEDAWEEK BARCELONA 2017". A white modal window titled "CREATE NEW COOPERATION PROFILE" is open. It contains the following fields: "Type" (a dropdown menu), "Title" (a text input field), and "Description" (a larger text area). Below the description field, there is a "Label" field. At the bottom of the modal, there are "EDIT" and "DELETE" buttons. The background website shows a navigation menu with "HOME", "WHO WE ARE", "HOW WE WORK", "JOIN US", and "CONTACT".

This screenshot shows the same modal window as above, but with the "OFFERED" and "REQUESTED" sections expanded. Each section has a list of checkboxes for different types of cooperation: "Outsourcing co-operation", "Technical co-operation", "License agreement", "Manufacturing agreement", "Sales / Distribution", "Investment/Financing", and "Other". At the bottom of the modal, there is a prominent green button labeled "SAVE NEW PROFILE". The background website is the same as in the previous screenshot.

The **SAVE NEW PROFILE** and your cooperation profile will be published and ready to accept b2b meetings.
